1. Claims 2-6 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to either singularly or collectively disclose a process for plasma treating a substrate in a process chamber under a partial vacuum while applying a gas to a waiting chamber (i.e.-a vacuum load lock chamber) adjacent to the process chamber wherein the gas pressure in the waiting chamber is higher than the gas pressure in the processing chamber.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

3. Any inquiry concerning this communication should be directed to examiner
